

## 112 DUBOIS BED, LOW HEADBOARD, WITH BEDSIDE TABLES

By Luca Nichetto

Dubois is a bed system crafted in premium solid hardwood and luxurious fabrics. The wraparound headboard provides a sense of privacy, while the exposed timber frame and generous expanse of upholstery celebrates the quality of materials and craft. Suitable for residential or contract environments, the bed is available with a low or tall headboard, with or without integrated bedside tables.

### **MATERIALS**

#### TIMBER

American black walnut, American white oak, or European Ash with a choice of a clear Danish oil, white oil, or black oil finish. American white oak additionally available oxidised; European ash additionally available stained or painted in a choice of 10 colours: black, white, bone, ochre, bordeaux, forest, fjord, bay, lagoon, or cove.

#### UPHOLSTERY

Our full standard range of fabric and leather options. COM and COL available upon request.

### **NOTES**

Upholstered cushions softening the inner face of the headboard drape over the top and fix to the back with wooden toggles secured with leather loops.

Integrated solid wood bedside tables include deep drawers with interiors made from basswood, a blond timber with outstanding stability in varying climates, ensuring a smooth-running function. Drawers are detailed with dovetail joinery and a soft-close mechanism.

Cables from bedside lighting can pass between the back of the bedside table and the headboard, feeding out through the bottom of the bed. The bedsides have a quick-release mechanism to facilitate this process.

Please note that when using leather to upholster the expansive surface of the headboard, our craftspeople will use their discretion to ensure the natural variations in the hide's colour and grain are most elegantly displayed. This may mean adding stitch lines to the headboard.

Platform base is black stained MDF with holes for air circulation.
