
B&B Atoll

SOFAS

2018

Antonio Citterio

Description

Named after the coral formation, the modular sofa system B&B Atoll is a refined expression of a balanced aesthetic form and a decisive contemporary style that is also extremely elegant. The system is built on three basic platforms that are complemented by armrest and backrest elements to form various types of seats: sofas, dormeuses, corner-end modules, single or modular elements with chaise longue and ottomans. The frames have light, slender lines and are applied on high die-cast supports with metal profile emphasising the line between the structure and upholstery. The pieces are given even more character by a supporting element to be placed wherever desired, a bolster in two sizes attached by leather straps to a die-cast structure. This accessory can be inserted between the seat cushion and the base structure to provide an additional support or become an armrest or backrest at will. B&B Atoll is a dynamic project with a constantly fresh ability to adapt to different compositions and create different seating types, from informal relax versions to most formal, also made possible by the use of complementary back cushions.

Technical information

Internal frame

tubular steel and steel profiles

Internal frame upholstery

Bayfit® flexible cold shaped polyurethane foam, polyester fibre cover

Seat cushion

shaped polyurethane of different density, sterilized down, polyester fibre cover

Back cushion

shaped polyurethane, sterilized down

Lumbar cushion (AT45_40)

down feather, box style typology

Roller

shaped polyurethane, polyester fibre cover

Roller support

die-cast aluminium

Roller webbing

fabric or leather

Support frame

die-cast aluminium

Ferrules

plastic material

Cover

fabric or leather
