Table lamps

SANTA & COLE

IP 20

Tapiovaara said that “it is impossible to create a new object without a point of reference—and nature is the best and closest manual for the industrial designer; whether in terms of the object’s purpose, that is, its functional requirements, or in terms of shape, colour, material and adequate proportion”. In 1955, when Alvar Aalto was the dominant figure of Helsinki’s cultural life, Ilmari Tapiovaara presented himself as the first Finnish non-architect designer. An expert in chairs and furniture, he created his sole and unique household lamp: Maija.

The Maija collection conveys the feeling of light in Baltic cities, where the streets are barely illuminated, apart from the light beaming through the windows of homes and shops: from the inside, outwards. Inspired by this, Tapiovaara created a honeycomb structure composed of stacked metal discs that filters out its happy inner light.

General description:
Metallic lampshade with matte white finish.
Brass legs with matte finish.
Diffuser in white translucent methacrylate.

Technical information:
Dimmable light source included
Built-in LED

Rated input wattage: 12 W
Operating voltaje: 24 VDC
CCT : 2.700 K
CRI: 90
Lifetime: 40.000 h
Luminous flux: 346 lm

Dimmer included.
Suitable only for indoor use.
Non-replaceable light source.

Input voltage : 90 ~ 264 Vac.
(50 Hz / 60 Hz). According to destination.
